

## **Please Support the Title V MCH Block Grant**

This week, in Washington, DC, advocates for maternal and child health (MCH) are fanning out across Capitol Hill as part of the Association of Maternal & Child Health Program's (AMCHP) Hill Day, in conjunction with AMCHP's 2012 Annual Conference. We are educating members of Congress on how our work makes a difference in the lives of women, children and families, including those with special health care needs. We are urging Congress to sustain funding for critical programs. Please join our voices and take a moment to join us in a virtual "Hill Day" to extend and expand the reach of our message.

You can add your voice right from your computer! Simply click [here](#) to personalize and send a message to your members of Congress asking them to support \$645 million for the Title V MCH Block Grant in fiscal year 2013 and oppose any effort to cut funding. Please help us spread the love for MCH this Valentine's Day and throughout the next week. This alert will be kept open for one week so that you can respond at your convenience. As always, we remind you to comply with your organization's rules on advocacy and attest that AMCHP uses no federal funds to support advocacy.
